

supplier Registration

Supplier Registration is a publicly available mobile-first website to register suppliers with an administration component to manage and search supplier information.

SUPPLIER INPUT

Contact information, services provided, and description defined by a custom form.

INFORMATION CONFIRMATION

Supplier reviews the information provided in the custom form and submits.

SUPPLIER REVIEW

Access via the RIVAS Portal. Data is hosted on a secure cloud database.

MANAGEMENT

Supplier information available in a tabular grid; filter, search and export in Microsoft Excel format.

CUSTOMIZATION

Custom branding, introduction, question, lists and reporting available as options at implementation.

SUPPLIER INFORMATION – SAME LOCATION

As projects proceed in their development, a proponent needs to engage the supply chain, locally, regionally and nationally to assess what companies might provide the various services and products required to support the project.

**Better project
information flow;**
so you achieve
decisions **faster.**

supplierRegistration is an optional module of the RIVAS project information management system. It is a publicly available mobile-first website to register suppliers with an administration component to manage and search supplier information.

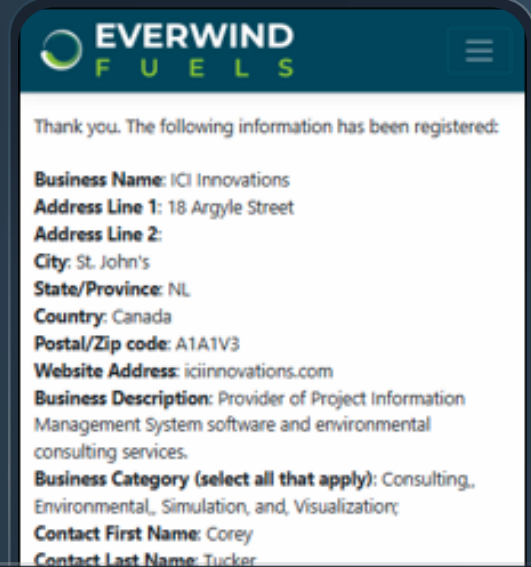

EVERWIND FUELS

Supplier Registration

At EverWind Fuels, we do business with a variety of suppliers and consider these relationships instrumental to our success. EverWind Fuels is committed to ensuring fairness in our vendor selection process.

Suppliers interested in working with us are asked to complete this supplier registration. Completing the form does not guarantee a response from EverWind Fuels, or that we will provide work or enter into a commercial relationship with any company. Supplier prequalification is only initiated when a business need arises and will be based on your company meeting our expectations for the goods and/or services to be supplied.
